

PUBLIC MEETING

Woodman Avenue Median Retrofit Project

Meeting sponsored by the Panorama City Neighborhood Council, Los Angeles Department of Water and Power, Department of Public Works, and The River Project.

WHAT: Presentation of the Final Design & Information on Construction Schedule

WHEN: 6:30 PM on WEDNESDAY, MARCH 14th

WHERE: Kaiser Permanente Campus, 13652 Cantara Street
North 2 Building, Classrooms 1 & 2

Project Description: The project, part of the Tujunga/Pacoima Watershed Plan, will retrofit the 3,500 foot long concrete median along the west side of Woodman Avenue from Lanark Street to Saticoy Street in order to recharge the groundwater basin, improve water quality, alleviate local flooding and enhance the community. The project will capture surface stormwater that currently flows into the Los Angeles River and out to the ocean. Flows will be re-directed into a swale landscaped with native plants and trees for infiltration. **Construction is scheduled to begin March 1 and be complete by the end of 2012.**

WOODMAN MEDIAN PROJECT: CONCEPT

Panorama City Medical Center
 13652 Cantara Street
 Panorama City, CA 91402
 818-375-2000
